

Pre-Survey:

- 1) There is one type of ozone (circle one)
 - a) True
 - b) False
- 2) The amount of ozone in our air is an accurate indicator of the Earth's health (circle one)
 - a) True
 - b) False
- 3) Ozone is not a harmful molecule when found in the stratosphere (circle one)
 - a) True
 - b) False
- 4) One cannot make a difference in the amount of ozone there is present in our troposphere (circle one)
 - a) True
 - b) False
- 5) Stratospheric ozone does have a harmful effect on humans (circle one)
 - a) True
 - b) False

Post-Survey:

- 6) There is one type of ozone (circle one)
 - a) True
 - b) False
- 7) The amount of ozone in our air is an accurate indicator of the Earth's health (circle one)
 - a) True
 - b) False
- 8) Ozone is not a harmful molecule when found in the stratosphere (circle one)
 - a) True
 - b) False
- 9) One cannot make a difference in the amount of ozone there is present in our troposphere (circle one)
 - a) True
 - b) False
- 10) Stratospheric ozone does have a harmful effect on humans (circle one)
 - a) True
 - b) False
